INTELLIGENCE INFORMATION HANDLING COMMITTEE
of the
UNITED STATES INTELLIGENCE BOARD

Office of the Chairman

IHC-MM-42/74

MEMORANDUM FOR: United States Intelligence Board
Intelligence Resource Advisory Committee

SUBJECT : Gray Telephone Conferencing Capability

1. In conjunction with the Intelligence Community Staff and with IHC Staff support, the National Security Agency is providing an executive conferencing capability on the gray secure phone system. This service is operated from the National SIGINT Operations Center (NSOC) located within NSA at Ft. Meade, Maryland.

2. We are making this service available only to selected members of the community in order not to exceed system capabilities. Once a conference has been established it can be locked-in to preclude knowing or inadvertent entry and monitoring. Therefore, it is essential that the telephone number and procedures used to establish a conference be held on a need-to-know basis.

3. Other methods are being investigated which will provide secure voice conferencing services for many community personnel not able to use the Executive Service. We will keep you advised on the progress of these investigations.
